### About the Exhibition

#### Reed Sinopharm Exhibitions

Reed Sinopharm Exhibitions (RSE) is a joint venture between China National Pharmaceutical Group Corporation (Sinopharm) - the largest medical and healthcare group in China, and Reed Exhibitions - the world's leading event organizer.

As leading exhibition and conference organizer in China, RSE covers health, beauty, happiness and education, with a portfolio of 37 highly recognized events to share a world of opportunities. We hold more than 30 world-class offline exhibitions and more than 1,200 professional conferences and seminars every year, providing innovative solutions to improve productivity and competitiveness for more than 21,000 global exhibitors. Our annual exhibition area has now surpassed 1.3 million square meters, attracting 750,000 professional visitors from more than 150 countries.

### About CMEF

Founded in 1979, the China International Medical Equipment Fair (CMEF) has undergone over 40 years of innovative development and is now regarded as a world-leading medical and health technology platform. This bi-annual CMEF covers the entire industry chain and integrates technology innovation, product launches, business matching, brand promotion, academic exchange, trend insight, and training. The 88th CMEF, themed "New Tech, Smart Future", showcased a wide range of products and solutions in medical imaging, in-vitro diagnosis, medical electronics, medical optics, hospital construction, operating room, disinfection and infection control, medical consumables, orthopedics, medical robots and many other departments, providing a comprehensive display of technological advancements and solutions from across the entire medical industry chain.

CMEF has risen from a reputable brand in China to a top 100 world exhibition for three consecutive years, and from one of China's top 10 most branded exhibitions to a mammoth international event in the medical industry. CMEF is a true testament to the rapid development of the medical equipment industry globally and in China. Today, as a vital platform for medical equipment enterprises to achieve rapid expansion and attain a global presence, CMEF continues to empower the industry with cutting-edge technology and drive innovation-led growth, to ensure the well-being of individuals and foster a global community focused on human health.
